

## AUTHOR INDEX

<b>Akopyan, A. A., Gevorgyan, O. V., and Saakyan, A. A.</b> <i>On two-dimensional polynomial interpolation</i> .....	211
<b>Aptekarev, A. I.</b> <i>Asymptotics of orthogonal polynomials in a neighborhood of the endpoints of the interval of orthogonality</i> .....	35
<b>Bardakov, V. G.</b> <i>On the theory of braid groups</i> .....	123
<b>Bogomolov, F. A.</b> <i>Stable cohomology of groups and algebraic varieties</i> .....	1
<b>Dubinin, V. V.</b> <i>Cubature formulas for classes of functions with bounded mixed difference</i> .....	283
<b>Ganikhodzhaev, R. N.</b> <i>Quadratic stochastic operators, Lyapunov functions, and tournaments</i> .....	489
<b>Gevorgyan, O. V.</b> See Akopyan, A. A.	
<b>Il'yuta, G. G.</b> <i>Monodromy groups of boundary singularities</i> .....	23
<b>Kapitonov, B. V.</b> <i>Sharp estimates of the rate of stabilization of solutions of exterior mixed problems for a class of evolution systems</i> .....	331
<b>Klimkin, V. M.</b> <i>On some properties of regular set functions</i> .....	247
<b>Klyachin, A. A. and Miklyukov, V. M.</b> <i>Traces of functions with spacelike graphs, and the extension problem under restrictions on the gradient</i> .....	305
<b>Kolesov, A. Yu. and Kolesov, Yu. S.</b> <i>Relaxation cycles in systems with delay</i> ...	507
<b>Kolesov, Yu. S.</b> See Kolesov, A. Yu.	
<b>Krasichkov-Ternovskii, I. F.</b> <i>Spectral synthesis in a complex domain for a differential operator with constant coefficients. III: Ample submodules</i> .....	165
<b>Krasichkov-Ternovskii, I. F.</b> <i>Spectral synthesis in a complex domain for a differential operator with constant coefficients. IV: Synthesis</i> .....	407
<b>Levin, A. L. and Saff, E. B.</b> <i><math>L_p</math> extensions of Gonchar's inequality for rational functions</i> .....	199
<b>Lifanov, I. K. and Poltavskii, L. N.</b> <i>Generalized Fourier operators and their application to the justification of some numerical methods in aerodynamics</i> .	65
<b>Matveev, E. M.</b> <i>On fundamental units of certain fields</i> .....	293
<b>Miklyukov, V. M.</b> See Klyachin, A. A.	
<b>Mishchenko, S. P.</b> <i>On varieties of Lie algebras not containing a three-dimensional simple algebra</i> .....	189
<b>Nikolaevskii, Yu. A.</b> <i>Classification of multidimensional submanifolds in Euclidean space with a totally geodesic Gauss image</i> .....	225

# AUTHOR INDEX

Onipchuk, S. V. <i>Regular semihypergroups</i> .....	155
Poltavskii, L. N. See Lifanov, I. K.	
Saakyan, A. A. See Akopyan, A. A.	
Saff, E. B. See Levin, A. L.	
Shevchuk, I. A. <i>Approximation of monotone functions by monotone polynomials</i>	51
Shtal', G. [Stahl, H.] <i>Best uniform rational approximation of <math> x </math> on <math>[-1, 1]</math></i> ...	461
Skryabin, S. M. <i>New series of simple Lie algebras of characteristic 3</i> .....	389
Skrypnik, I. V. <i>A necessary condition for regularity of a boundary point for a quasilinear parabolic equation</i> .....	265
Tunitskii, D. V. <i>Regular isometric immersion in the large of two-dimensional metrics of nonpositive curvature</i> .....	317
Volovikov, A. Yu. <i>A theorem of Bourgin-Yang type for <math>\mathbb{Z}_p^n</math>-action</i> .....	361
Zhikov, V. V. <i>On passage to the limit in nonlinear variational problems</i> .....	427
Zolotarev, V. A. <i>The Lax-Phillips scattering scheme on groups, and a functional model of a Lie algebra</i> .....	99
